Vernon school of cricket is here for you, regardless of your level of participation in this great game. It is our fervent hope that this small step we are taking today will turn out to be a significant step for the future of cricket.

We recognize the importance of having small group where the coach can give more attention to the individual.

1. We aim to teach one batting/ bowling and fielding skill each lesson
2. We keep record of what we teach, and we monitor players' improvements.
3. Net session every lesson

“ALL ROUND TRAINING “in every sense of the term will be our motto.
